"PRESENT PETS" puppy is a new type of pet toy, for which, when the user pulls the tag on the gift box, the box rocks back and forth and begins to tear itself open from the inside, and then <u>a puppy comes out</u> <u>all by itself. It provides "an encounter with a new</u> <u>family pet"</u> and allowing communication through taking care of it, playing games with it and talking to it.

This product was inspired by the popular overseas video of a new family pet appearing when children open a gift box given by their family. "Unboxing" and "opening" videos are also popular contents on social media such as video sharing services. "PRESENT PETS" puppies are designed to enhance the "opening experience" which is currently attracting attention.

The puppies come in two designs: <u>"Fancy Puppy"</u> which features floppy ears, and <u>"Glitter Puppy"</u> which features a heart pattern around one of the eyes, each coming in 2 different colors, for a total of 4 types. You will not know the color of the puppy until the box is opened.

For both who have raised a real pet and those not, this product contains our desire that you can experience the surprise, joy and excitement of the moment of an unexpected first encounter with a new family member.

The new type of pet "Hatchimals", which was released worldwide in October 2016 and hatches from eggs held in your own hands, has shipped a cumulative total of roughly 5.1 million units globally as of September 2020, and this product is put forward as the next step "encounter beyond imagination."

How to play

- Meet -

1) Completely remove the outer box, then pull the tag on the top of the inner box all the way up.

"PRESENT PETS" outer box (Fancy Puppy)

2) The box will rock back and forth, and holes will gradually tear open from the inside. Then the box will tear open further...

3) Then what appears from inside the box is a puppy cutely moving its front paws.

— Type —

— Let's play! —

You can enjoy three types of communication with the puppy after it comes out of the box, including taking care, talking and playing games.

Take care of the puppy a lot and get friendly!

- <Three ways to play>
- ★Take care...When you pet its head or stomach, it squeals in delight and flutters its front paws. It may present some hidden talents also?
- ★Talk...When you talk to it, it will reply in the "dog language" depending on how long you spoke.
- ★Game...A game to imitate the puppy barking. There are two levels. You win if you can imitate successfully 3 times.

"PRESENT PETS" will be released worldwide by Spin Master Ltd. (headquarters: Canada) under the product name "PRESENT PETS", targeting roughly 45 countries and regions around the world. In Japan, we will localize and release it according to the Japanese specifications.
