OPTIMUS PRIME / ORION PAX

Orion Pax is courageous, charismatic, leads by example, and has a strong moral compass. A selfless bot, often rushing headlong into danger to help others in need Orion Pax will always do what he feels is right.

The only life he's ever known has been toiling away as a Cog-less Miner harvesting Energon, yet he remains optimistic about his path in life. He strives to see the thriving Cybertron he's heard of only in legends be restored, for the good of all Cybertronians.
